SUPPLEMENTARY INFORMATION: Pursuant to the authority granted in 33 U.S.C. 1605, the Department of the Navy amends 32 CFR Part 706. This amendment provides notice that the Deputy Assistant Judge Advocate General (Admiralty) of the Navy, under authority delegated by the Secretary of

the Navy, has certified that USS OAK HILL (LSD 51) is a vessel of the Navy which, due to its special construction and purpose, cannot fully comply with the following specific provision of 72 COLREGS without interfering with its special function as a naval ship: Annex I, paragraph 3(a), pertaining to the horizontal distance between the forward and after masthead lights. The Deputy Assistant Judge Advocate General (Admiralty) has also certified that the lights involved are located in closest possible compliance with the applicable 72 COLREGS requirements.

Moreover, it has been determined, in accordance with 32 CFR Parts 296 and 701, that publication of this amendment for public comment prior to adoption is impracticable, unnecessary, and contrary to public interest since it is based on technical findings that the

placement of lights on this vessel in a manner differently from that prescribed herein will adversely affect the vessel's ability to perform its military functions.

Coast Guard

33 CFR Part 165

[COTP Jacksonville Regulation 93-115]

RIN 2115-AA97

Security Zone Regulations; Naval Air Station Jacksonville, FL

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard is removing an existing security zone on the St. Johns river, Jacksonville, Florida, and establishing a security zone for the waters surrounding Naval Air Station Jacksonville, Florida. The change will delete an existing security zone for the north bank of the St. Johns river at the junction of Brills Cut Range and Broward Point Turn, known as Dunn

Creek Terminal. The change also establishes a security zone around Naval Air Station Jacksonville to safeguard sensitive military assets on the facility. No person or vessel may enter or remain in the zone without the permission of the Captain of the Port Jacksonville, Florida.

EFFECTIVE DATES: January 19, 1996.

FOR FURTHER INFORMATION CONTACT: LT E.W. Heinold, Coast Guard Marine Safety Office Jacksonville, Florida at (904) 232-2957.

SUPPLEMENTARY INFORMATION: On May 19, 1994, the Coast Guard published a notice of proposed rulemaking in the Federal Register for these regulations (59 FR 26155). Interested persons were requested to submit comments and no comments were received. One minor correction has been made since the notice of proposed rulemaking; the proposed section, § 165.709 will now read § 165.722. This correction will allow this regulation to be located in Title 33 Code of Federal Regulations (CFR) with other regulations for the MSO Jacksonville area of responsibility. As a matter of general interest the Coast Guard notes that this final regulation provides, that no person or vessel may

enter or remain in the zone without the permission of the Captain of the Port Jacksonville, Florida. Title 33 CFR 6.04-11 authorizes the Captain of the Port to enlist the aid and cooperation of Federal, State, county, municipal, and private agencies to assist in the enforcement of regulations issued pursuant to that part. The Captain of the Port of Jacksonville advises that the aid and cooperation of the Commanding Officer, Naval Air Station Jacksonville, FL has been enlisted to assist in the enforcement of this security zone.

Drafting Information

The drafters of these regulations are LT E.W. Heinold, project officer for the Captain of the Port Jacksonville, Florida and LTJG J. Diaz, project attorney, Seventh Coast Guard District Legal Office.

Federalism

This action has been analyzed in accordance with the principles and criteria contained in Executive Order 12612, and it has been determined that the rulemaking does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environmental Assessment

The Coast Guard has considered the environmental impact of these regulations consistent with section 2.B.2.e.(34)(g) of Commandant Instruction M16475.1B and the establishment of a security zone has been determined to be categorically excluded from further environmental documentation.

Regulatory Evaluation

These regulations are considered to be non-major under Executive Order 12291 on Federal Regulation and nonsignificant under the Department of Transportation regulatory policies and procedures (44 FR 11034; February 26, 1979). The economic impact of these regulations is expected to be so minimal that a full regulatory evaluation is unnecessary. Recreational use of the area will be affected. The security zone will extend 400 feet from the shoreline and the depth of water in this area is such that commercial traffic will not be affected.

Since the impact of these regulations is expected to be minimal, the Coast Guard certifies that it will not have a significant impact on a substantial number of small entities.
